

Special Price Reductions on Rattan and Sea Grass Furniture All This Week

Our importations of rattan and sea grass furniture direct from Hong Kong, China, have just been received.

These are goods that were purchased almost a year ago for our Summer business. The lateness of this arrival means a saving to those who purchase at this time, as we do not wish to carry them over to another season. Therefore, we are cutting the price at least one-third from what it would have been if the shipment had arrived on time and at least one-half less than the same is being sold for in the large cities.

Sea grass furniture is made of a fibre like material, closely woven with fancy strand and is hand-worked. It will stand the test of hard usage, yet it is attractive in every way. Suitable for porch, breakfast sets, summer homes, bedroom and living rooms. This importation consists of tables, chairs, rockers, settees, ladies' work baskets, children's chairs and rockers.

The prices and pieces will show for themselves. Watch our window.

Fancy Silk Pillow Tops

Size, 16 in. x 19 in.

Regular price \$2, former sale price **\$1.69**
We have got to close these out, **\$1.39**
so the price has been reduced to . . .

These tops are made from fancy art silk pieces with velour centers. Finishes at the end with a silk gimp braid. Come in a variety of colorings. Covers finished ready for the pillow.

They are drummer's samples and remnant ends made up, which is the reason they can be offered at this price.

Leather Cushions Specially Priced

An article just right for the automobile, porch or extra cushion for any chair.

Price \$1.69 and \$2.29 each

William Deans, jr., and wife, who have also been visiting at the Deans home, left for their home in Waterbury, N. Y.

The woman's association of the Congregational church held a novel affair at the church parlor yesterday, when a home craft exhibit was shown. It was evident that needlework of the olden time cannot be excelled even by experts of the present hour, for exquisite handwork was displayed, in embroidery, tatting, beadwork, homespun linen and cotton, samplers, wooden shuttles and bows, handmade, and many other articles, as well as some of more modern time. Of special interest was the display of 15 quilts, recently completed, which are ready to be placed in the boxes soon to be shipped to missionary stations in the United States for the benefit of the workers.

A telegram received at the headquarters of the Barre Quarriers' and Manufacturers' association yesterday afternoon from Traffic Manager C. D. Waters, who is now in Boston, stated that railroad authorities have arranged for a daily shipment of 12 cars into the Barre district until the present situation is relieved. This news was spread broadcast soon after reaching the association office and enabled many a granite manufacturer to breathe a deep sigh of relief, as it is certain that such a number each day will aid in lightening the burden carried by many of the granite firms, a large amount of money being tied up in finished work and lying in the yards ready for shipment.

Notice.
I will be at the Helen M. Cutler farm Saturday, Sept. 4, after 2 o'clock p. m. to settle with all persons who have not settled or arranged to settle for property bought at the auction. With all due respect for the 10-foot stalk of corn which Newton Stearns raised on a plot of ground on West street and which for several days has been decorating The Times office window, A. H. Wilkins wants the public to know that his corn field at 148 Brook street wouldn't think of producing corn only 10 feet high and so he tells of a stalk of sweet corn that measures 11 feet four inches, which he raised.
